

Dr. Mikhail Smirnov is Senior Researcher in Laboratory № 23 Polymer biomaterials and systems at Institute of Macromolecular Compounds, Russian Academy of Sciences, St. Petersburg, Russia.

Dr. Mikhail Smirnov graduated from Moscow State University in 2003. He has got his PhD at Institute of Macromolecular compound RAS in 2007.

Research interests: polymer chemistry, natural polymers, electroconducting polymers, hydrogels, electrochemistry and physical chemistry of polymer materials, deep eutectic solvents.
